

# Golden Power Wheelchairs

HIGHLY DEPENDABLE WITH MAXIMUM MANEUVERABILITY,  
SUPERIOR STABILITY AND GREATEST FUNCTIONALITY

Visit Your Local Authorized Dealer:

## **THE MOST STABLE BASE IN ITS CLASS!**

### **YOU CAN'T STAND LIKE THIS ON ANY OTHER POWER WHEELCHAIR BASE**

The Golden Compass™ line of power wheelchairs provide superior forward stability making them the safest power wheelchairs to mount or dismount. The Compass line has fewer moving parts than a power base with springs for the best forward stability and no tipping!

## **THE INNOVATIVE SEAT DESIGN MAKES OUR POWER WHEELCHAIRS THE EASIEST TO TRANSPORT!**

Golden's unique Captain's Seat design found on the Compass Sport, Compass HD and Compass TRO features the patented Fold-Flat Seat Bracket standard. This unique bracket allows the backrest to fold completely flat against the seat, requiring a lower clearance height to load the unit into a vehicle. The Compass HD and TRO also feature the ergonomic Slide Seat Bracket so the seat can be slid off or onto the seat frame for easy assembly or disassembly.

# Experience Constant Contact.

Inclines and thresholds are no match for the Golden Compass Sport's **true center wheel drive design with the patented springless articulating chassis!**

This unique suspension system keeps all six wheels on the ground simultaneously, eliminating the rocking sensation when traversing inclines, giving all Compass™ models unparalleled curb and threshold climbing ability. The Compass's suspension system pushes the center drive wheel down when the front and rear casters are raised and pushes the front and rear casters down when the drive wheels are raised. No other power base design can match the constant wheel to ground contact of any Golden Compass power base!
